Getting Ready -- First Things First

You must create Filers before you can create Tax Forms.
TIP: A "Filer" is Company or person telling the IRS that they made a payment to someone. When using Pro, YOU are a Filer.

Manage My Filers

1 Preparing My Forms

Assembling and verifying all of the information that will be used to create your tax forms. Also, fixing issues with previously Filed forms.

2 Printing And Mailing My Forms

Sending the tax forms to your Recipients. You can do this yourself or have Pro or another service provider do it for you.

3 Filing My Forms With the IRS

Submitting your finalized tax forms to the IRS. This can be done on paper or electronically (the preferred method.)

Corrections?

What's Next? (Creating Corrections, if needed)

If everything was right the first time, you are done! If you need to correct a form, you go back to Step 1 and update the form to create a correction.
