

W-2 Pro v2016.13.24

Release Notes

UPDATED: Made changes to the service bureau process and reports so that users can't accidentally cancel with Esc key.

UPDATED: eFileViewer has been updated to export the full ZIP code for W-2's.

FIXED: Security enforcement has been improved for to Printing, eFiling and SB Uploads.

FIXED: If a user selected "print/mail forms myself", printed forms for "all filers", and chose yes at the end - the process would mark all records as printed without regard to security.

This update also includes many other small visual and/or performance enhancements.
